READING

FRIENDS

Hello! My name is Raj. I have four friends. Their names are Aman, Abdul, Gurmeet and John. We all study in Class 2<sup>nd</sup>. My best friend is John. We both study together and John sits next to me in class.

We both take breakfast in the morning before coming to school. I take Parantha sabzi and milk for breakfast. John likes cornflakes with milk and an apple for breakfast. Milk and apple are healthy food. We both like chocolates but chocolate is an unhealthy food as it causes cavities in teeth. So we eat chocolate only sometimes. I like sharing my lunch with all my friends. We all sit together in lunch time and share our lunch. I love my friends.
